

MARELLA GAGAN HARI KIRAN

+91 9989446922

ghk7125@gmail.com

Hyderabad, TG

EDUCATION

Bachelor's Degree: -
Geethanjali College of
Engineering and
Technology

12th Grade: -
Nano Junior College

TECHNICAL SKILLS

- C, Python, Java, ALP
- MERN Stack Development
- ROS – 2, IoT
- Industrial Design
- HTML, CSS, JS
- MySQL, MongoDB

PROFESSIONAL OVERVIEW

I am an enthusiastic undergraduate student with a strong interest in *robotics, automation, and full-stack development*. My technical foundation includes **Artificial Intelligence and Machine Learning (AIML)**, **Robot Operating System 2 (ROS 2)**, **Internet of Things (IoT)**, and **Generative AI**. I'm also well-versed in the **MERN stack (MongoDB, Express.js, React, Node.js)**, enabling me to develop robust, scalable web applications that complement intelligent system design. With a multidisciplinary skill set bridging

WORK EXPERIENCE

Robotics and AI Developer Intern / Trainee

MyEquation | Apr 2025 – Jun 2025

Learnt about Robotics and

- Internship trainee and Intern
- Learnt about Robotics, AIML, ROS - 2.

MERN Stack Developer Intern

Cantilever Labs | May 2025 – Jun 2025

Learnt about MERN Stack, where: -

- Learnt front end development using React.js
- Learnt backend development using Node.js and Express.js
- Learnt Database connectivity using MongoDB
- Learn live website deployment using Vercel and GitHub

Advanced Machine Learning Intern / Trainee

Teachnook | Oct 2023 – Dec 2023

Learnt about AIML and studied about

- Machine Learning and its implications
- Created projects based on ML and DL

AI Developer Intern / Trainee

Corizo Edutech | Jun 2023 – Aug 2023

Learnt about AIML and learnt

- AI Development using Python
- Project created using CSV Datasets and Python for AI
